

# I Love You Still

Questioning my love for You  
Examining my faith to see if it is true  
I search my heart through thought and prayer  
Why am I afraid of what I might find there

Oh Father I offer Everything I am

## (Chorus)

I love You still I always will Even until all things You fill  
After a while After these miles I'll see You smile Your dreams fulfilled  
Knowing I love You still

Am I another Pharisee  
Whose guilt remains because I claim that I can see  
I cannot help but hear Your call  
Do I really have to sacrifice it all

Oh Jesus Sweet Jesus I love You because You first loved me

## (Chorus)

I love You still I always will Even until all things You fill  
After a while After these miles I'll see You smile Your dreams fulfilled  
Knowing I love You still

## (Bridge)

May my deeds portray my love the love that You have given me  
May my words proclaim the Truth that has set me free  
Make my thoughts as pure as You have enabled them to be  
I want to walk within the power of the resurrection  
The purity of Your salvation  
The passion of a love so true  
Forever I'll be loving You

## (Guitar Ride)

## (Chorus)

I love You still I always will Even until all things You fill  
After a while After these miles I'll see You smile Your dreams fulfilled  
Knowing I love You still Knowing I always will Love You still
