

Show Me The Way

I don't know the way to go from here This decision has me bound in fear
It's hard to walk a path that's so unclear But I would run if I could only hear

You said that if I'd seek and keep on knocking
That You would let me in

(Chorus) I come to You in truth I have so much to lose
And I am so unsure of which way I should choose
So won't You help me please I'm down here on my knees
Show me the way

All the questions make me analyze And that is why I feel so paralyzed
I wish the answer wasn't so disguised I have to find the truth beyond the lies

I feel so beaten down that I am crawling
But I will not give up

(Chorus) I come to You in truth I have so much to lose
And I am so unsure of which way I should choose
So won't You help me please I'm down here on my knees
Show me the way

(Bridge) It's easy to regret And hard to undo what's been done
I haven't chosen yet But it will surely come
And I cannot forget The promises You made to me
So I will not fret I need just believe

(Instrumental)

I do not wish to merely pass the test Nor be found settling for less than best
I'm learning all I need to do is rest But all I'm asking for is "no" or "yes"

I'm hearing constantly so many voices
So tell me which one's Yours

(Chorus) I come to You in truth I have so much to lose
And I am so unsure of which way I should choose
So won't You help me please I'm down here on my knees
Show me the way
